# Seven Starters Return Equal Talent, Ability Mark 1984-85 Dukes

There are no apparent stars on the 1984-85 men's basketball team at James Madison University.

No definite All-America candidates. No obvious all-Conference performers. No one who will score 25 points each game, grab 15 rebounds or "really dominate" like star players do.

There are, instead, 13 players roughly of equal talent and ability. Nine of them learned to crawl on last season's 15-14 team. Four are freshmen who'll have to learn right away to walk.

Seven of the nine returning lettermen started at one time or another last season: Seniors Darrell Jackson (six starts) and Greg Mosten (19); juniors Todd Banks (two) and Eric Esch (24); and sophomores Eric Brent (27), George Kingland (seven) and John Newman (14).

Overall, the coaches used 11 different starting lineups last season. Other players to start were four-year lettermen Derek Steele (24 games) and Keith Bradley (11), and Jimmy Masloff (10) and Bill Hughes (1) who did not return this season.

The seven returning starters are joined this season by two more lettermen—sophomores Anthony Inge and Kevin Sutton—and four freshmen—Robert Griffin, Harold Harris, Kennard Winchester and Ramsey Yeatts.

## The Guards

Eric "Boo Boo" Brent (9.0 ppg and 3.7 rpg last season) is the Dukes' top returning scorer. He led the team in starts last season (27), most of them alongside leading scorer Steele. Brent's scoring should improve this winter, especially if his field goal

accuracy rises from last year's 40.8%.

George Kingland (7.3, 2.7) made seven starts last season after recovering from a January back injury that kept him out of four games. He was used at the "shooting" guard and small forward positions.

Anthony Inge (0.8, 0.1) and Kevin Sutton (0.3, 0.0) were spot performers last winter with Inge seeing action late in the season as a "quick reliever" for Steele.

Robert Griffin averaged 17.2 points and 11 rebounds as a front-court player last season at Governor Thomas Johnson High School in Frederick, Md. He was voted "player of the year" by the Hagerstown Morning Sun and Frederick News-Post.

Harold Harris is a walk-on product from Benedictine High in Richmond.

## The Forwards

Darrell Jackson (4.3, 3.9), Greg Mosten (6.1, 4.6) and John Newman (5.7, 3.2) were last year's top performers at forward.

Slowed early by off-season knee surgery, Jackson became one of the team's top defenders and most consistent performers. He started the last five games and received the team's defensive MVP award.

Most of Mosten's success came early as he averaged 9.6 points while starting in the first 10 games. Newman, meanwhile, missed nine of those first 10 games due to a leg injury, but he recovered to start in 14 contests and establish himself as an outside scoring threat.

Todd Banks (3.4, 1.7) played a key reserve role throughout the season and broke into the starting lineup for two games near season's end.

Eric Esch

Kennard Winchester averaged 22.8 points and 11.3 rebounds last season for Queen Anne's High School in Centreville, Md. Ramsey Yeatts had averages of 21.6 points and 11.8 rebounds to lead Gretna High to a 24-2 record last winter.

## The Center

The Dukes' tallest player at 6'9½", Eric Esch (7.7, 5.1) is the team's only true center. Last season he started in 24 games and shared time with Keith Bradley. He was one of the team's

better shooters from the field (53.4%) though not from the line (55.9%).

(Additional Note: Ken Schwartz, a 6'7" forward from Williamson, W. Va., and a transfer from Army, also has enrolled at JMU. He will have two seasons of eligibility at JMU beginning with 1985-86. A starter at Army, he averaged 14.1 points and 5.5 rebounds as a freshman in 1982-83 and 14.5 points and 6.5 rebounds as a sophomore before being declared academically ineligible 11 games into the season.)

# Campanelli Tallies Remarkable Record

You begin to get a picture of Lou Campanelli's accomplishments as JMU's basketball coach when you consider the fact that the Dukes have won at least 15 games in each of the 12 seasons he's been at the helm.

The picture becomes clearer when you add these statistics:

- \* five NCAA Tournament appearances.
- \* three 20-win seasons
- \* two ECAC South titles
- \* an average of 18.7 wins a season
- \* a home-court win mark of 82%
- \* NCAA tourney wins over Georgetown, Ohio State and West Virginia
- \* 224 wins under his guidance

The picture begins in 1972, when Madison College (enrollment 4,562) hires Campanelli to direct its three-year old men's intercollegiate basketball team. His first squad (1972-73) is the college's first official scholarship team, which competes in the NCAA's Division II.

The picture is now in its 13th season. Over the years the college has grown (enrollment 9,320), the name has changed and the basketball team has completed a successful transition from Division II to Division I.

"It's really mind-boggling what happened here," Campanelli has stated when discussing his tenure. "To be honest with you the program has grown much faster than I thought it would."

"When I arrived and looked at the situation at JMU, I thought we could build a program that would enable us to reach the Division II tournament in four or five years. We didn't expect to get there in two and certainly didn't expect to be Division I by our fifth year."

After posting a 16-10 record in Campanelli's inaugural season, the Dukes finished 20-6 in 1973-74 and participated in the NCAA Division II Southern Regional Tournament. Two seasons later they were back in tournament play (the Division II South Atlantic Regional) with an 18-9 mark.

The next season (1976-77) JMU jumped to Division I.

"Our period at Division II was so short, it was almost frustrating," Campanelli recalls. "Just when we were getting somewhere on the Division II level, we went Division I."

At Division I, however, the Dukes have also been getting somewhere. They got to the NCAA Eastern Regional Tournament in 1981, 1982 and 1983, winning their first-round game each time. In 1981 they surprised Georgetown 61-55. In 1982 they rallied past Ohio State 55-48. And in 1983 they tamed West Virginia 57-50.

They won 20 or more games in each of those three NCAA seasons, and won the Eastern College Athletic Conference Southern Division title in 1981 and 1983.

"I think the most gratifying thing is the fact that we rose from the level of obscurity up to the NCAA Division I Tournament," he offers. "The growth of the JMU basketball program is unrivaled in recent years. We've come a long way in a short time without experiencing the ups and downs programs usually have when they're growing. Our players have continuously risen to the challenges. That's a remarkable record of consistency."

And it's a remarkable record for Campanelli: 224 victories, 104 losses.

Lou Campanelli has been head coach for 12 years.

The coaches plan strategy during a game.

## Coach's Comments

**On JMU's offense:** "We'll be a better shooting team this season. We didn't shoot well last year—it's hard to believe we won 15 games shooting as poorly as we did at times. But the young players we used then now have experience. They should be able to settle into their role and, as a result, shoot better."

**On the 45-second shot clock to be used in conference games:** "The game will obviously be a little quicker, but the change shouldn't be drastic. Since we've never coached with a shot clock and since we run a more deliberate offense, it will be a trial and error thing for us early on."

**On JMU's defense:** "We'll still use multiple defenses. Last year we weren't consistent on defense because we were using so many young and inexperienced players. We should have more consistency this year."

**The schedule:** "It's maybe one of the toughest schedules we've had. It's the kind that will make it tough to get close to 20 wins. With two tournaments on the road, and with the 14 conference games and the games with Old Dominion and VCU, it's as tough as any around. It does not lead to a lot of easy wins."

**Campanelli's Comments:** "Robert is an aggressive and strong player who can be very intimidating on defense for someone his size. He always plays under control, and doesn't try to do more than he can do. We're looking for him to make a major contribution at point guard."

**Harold Harris**

**Campanelli's Comments:** "Ramsey can catch and shoot with the best of them. He's quick with his release, but must get quicker flooring the ball. If we have the luxury to bring him along at a good pace, he'll be a solid player. For a kid with not much meat on his bones, he's not afraid to be physical."

## Eight Schools Are ECAC South Members

James Madison University is a member of the Eastern College Athletic Conference (ECAC) Southern Division and the National Collegiate Athletic Association (NCAA).

The ECAC South is one of a number of conferences which are part of the ECAC, a voluntary association of 240 colleges and universities from throughout New England, the middle Atlantic states, Virginia, the District of Columbia and North Carolina. Institutions of every size and composition are members of the ECAC, lending the conference an unparalleled diversity in membership.

A conference on conferences, the ECAC umbrella covers dozens of playing conferences and other associations. In addition to the ECAC South, conference members include the Big East Conference, the Ivy League and the East Coast Conference.

The ECAC South was created by the ECAC in 1979 as one of three ECAC Division I men's basketball conferences. Conference membership has increased from six to eight members in the past year, with the league now being comprised of American University, East Carolina University, George Mason University, JMU, the University of North Carolina-Wilmington, the University of Richmond, the U.S. Naval Academy and the College of William and Mary. In addition, the ECAC South has also expanded its championship offerings to 10 sports—men's basketball, women's basketball, men's cross country, women's cross country, men's golf, men's soccer, men's tennis, women's tennis, men's outdoor track and women's volleyball.

The 1984 ECAC South women's basketball tournament represented the first women's championship offered by the conference. East Carolina defeated Richmond 54-39 to win the championship at the inaugural

tournament, held in Greenville, N.C., last March.

The 1985 ECAC South women's basketball tournament will be held March 1-3 at the University of Richmond. Seven of the eight ECAC South teams will compete in the tournament. Navy, which is Division II in women's basketball, has elected not to compete in the postseason tournament.

The seven ECAC South Division I women's basketball teams will play a complete round robin schedule in 1984-85. Tournament seedings will be based primarily on head-to-head competition within the conference.

An automatic qualification for the NCAA Championships for the ECAC South's women's basketball champion is actively being sought.

In addition to the ECAC South and the NCAA, JMU also holds membership in the Virginia Intercollegiate League (VIL) and was a charter member of the Association for Intercollegiate Athletics for Women (AIAW) and the Virginia AIAW.

The VIL is an association of the 10 Virginia Division I schools including George Mason University, JMU, Old Dominion University, Radford University, the University of Richmond, the University of Virginia, Virginia Commonwealth University, Virginia Military Institute, Virginia Tech and the College of William and Mary. The VIL sponsors statewide competition in several men's and women's sports.

All of JMU's sports except volleyball compete at the Division I level of the NCAA. Volleyball competes in Division II, but a move to the Division I level is planned for 1985.

The divisional structure of the NCAA is based on the level of competition and is partially defined by the maximum amount of financial aid allowed to be granted by the institution to student athletes.

## JMU Sports Network Plans Broadcasts

Each of JMU's basketball games will be broadcast on the JMU Sports Radio Network with the polished team of Mike Schikman, David Taylor and Roger Allen working together for a second consecutive season.

Schikman calls play-by-play, Taylor adds the color commentary and Allen handles on-the-air production and engineering. The trio also broadcasts JMU's football games.

Allen, who has been associated in one way or another with the JMU network since its beginnings in the early 1970s, is engineering the broadcasts for the seventh straight year. His radio background includes several years as an announcer at WAYB-AM in Waynesboro, Va.

Schikman joined the network as play-by-play announcer in 1981. He is the sports director at WQPO-FM/WSVA-AM in Harrisonburg, and is also host for the JMU football and men's basketball coaches' television shows.

Taylor signed on with the network in 1983 after three and a half years at WAYB where he won an Associated Press award for best non-metro sports coverage. Taylor also directs the network's operation and distribution.

# Five Starters Return for Season

## Women's Team Takes Shape Under Moorman

**On the move:** The building of a strong women's basketball program at James Madison University is beginning to take shape under head coach Shelia Moorman, who in 1984-85 enters her third year as the Dukes' head coach.

All five starters return from the JMU team that last season put together the Dukes' best record in five years. The addition of a second recruiting class will give coach Moorman's team the depth it has previously lacked.

"Our strength is going to be our depth in the frontcourt and the fact that we have some pretty versatile players in the frontcourt," said Moorman. "In fact, I'm almost reluctant to even name positions; we'll have a lead guard to quarterback the team and four players on the court with her."

**The frontcourt:** Three-year veteran Michele James, a 6' senior forward from Ellicott City, Md., is the most experienced of the Dukes' returning frontcourt players. A three-year starter, she has led the Dukes in rebounding the past three seasons. In 1983-84 James averaged 8.7 rebounds per game and was second on the team in scoring with an average of 10.5 points per game.

Betsy Witman, a 5'11" sophomore

forward from Hanover, Pa., and Julie Franken, a 6' sophomore forward from Columbus, Ohio, enter the 1984-85 season with a year's experience as freshman starters behind them. Witman was the team's third leading scorer (9.9 avg.) and rebounder (5.6 avg.) and Franken was second on the team in rebounding (6.7 avg.) and fourth in scoring (9.4 avg.) last season.

Other returning players up front include Erin Mahony, a 6'3" sophomore center from Burlington, Vt., Susan Flynn, a 5'10" junior forward from Woodbridge, Va., and Julie Hopkins, a 5'9" sophomore forward from Purcellville, Va.

Sandy Broughton, a 6'1" freshman center from Paterson, N.J., and Alisa Harris, a 6' freshman forward from Harrisburg, Pa., will help provide the Dukes with their frontcourt depth this season. Broughton was a four-time all-league first team selection at Passaic County Tech, where she averaged 20.6 points and 15.5 rebounds a game last season. Harris averaged 15.5 points and 10 rebounds per game for the two-time Pennsylvania state runner-up team at Bishop McDevitt High School. Harris was the Mid-Penn Conference Division I Player of the Year and a USA Today honorable mention All-America last season.

**The backcourt:** The Dukes' starting guards last season, 5'7" senior Sue Manelski and 5'6" sophomore Floretta Jackson, return for the Dukes. Manelski, from Wilmington, Del., has led JMU in scoring as a starter the past three years and is in line to become the Dukes' all-time leading scorer this season. Manelski averaged 13.1 points per game, earned all-conference, all-state and all-region honors and was voted the Dukes' Most Valuable Player in 1983-84. Jackson, from Wyandanch, N.Y., earned a starting position midway through last season and led the Dukes in assists (73) and steals (41).

Joining the Dukes' backcourt are Terri Haynes, a 5'8" freshman from Lacona, N.Y., and Jennifer Tutt, a 5'8" freshman from Luray, Va. Haynes was a five-time all-league selection at Sandy Creek Central School, where she averaged 31.6 points per game and shot 66 percent from the field as a senior. Tutt averaged 15.7 points and 11.2 rebounds per game as a senior at Luray High School. She was one of only two players from group A schools to be selected to participate in the 1984 Virginia High School League All-Star Game.

"Flo and Sue started to work well together as the season progressed last year, and we're glad to have that tandem back," said Moorman. "We're not as deep at the guard positions as we are up front. I'm confident that Terri Haynes will contribute a lot at either guard position, but we have to adopt a wait-and-see attitude with Jennifer."

**The blending process:** "We're still in the process of blending veteran and new players, with only two seniors and one junior on the team,"

said Moorman. "However, I don't think any of our freshmen will be pressured to start. Some of them may start, and others will play vital roles off the bench."

"As a group we have a very dedicated group of athletes with a real love for the game. The game is important to them, and they're willing to spend time to develop as players."

**The ECAC South:** "We continue to be one of the younger teams in the conference," said Moorman. "East Carolina and Richmond have established themselves, and we haven't had a history of success against either team. North Carolina-Wilmington should not be overlooked, either; they'll be competitive from day one."

The Raisins won the sectional championship in 1984 and were sectional semifinalists in 1983.

**Coach Moorman on Haynes:** "Terri is an extremely hard-working, dedicated athlete; no one's going to outwork Terri Haynes. She's a good shooter, and she can drive to the basket or drive and dish off. She has the potential to be a scorer for us."

Four-time MVP of the Luray track team. Has a 26-inch vertical jump.

**Coach Moorman on Tutt:** "Of all our players Jennifer has the least experience with the game but the most physical ability. Right now her strengths are getting involved in the running game and using her physical talents on the defensive end of the court. We look forward to tremendous improvement from Jennifer, but she will have to work hard on developing guard skills."

## As Head Coach Moorman Begins Third Year Coach Believes In Winning Tradition

Third-year head coach Shelia Moorman is intense in her desire to build a winner. Her past accomplishments in athletics have been successful, and she plans to continue that tradition of success at James Madison University.

Moorman's impact on the JMU program has already been felt. After only one full recruiting year under Moorman, the Dukes posted the team's best record in five years last season and the team was nationally-ranked in scoring defense and field goal percentage defense.

With her second recruiting class enrolled, Moorman is looking forward to the 1984-85 season.

"I already feel a certain chemistry developing on the team that I think will be necessary for our success," Moorman said. "I also sense a lot of interest developing in our program. I think people expect us to do well, and the team expects it of themselves, and that's nine-tenths of the battle."

Moorman, 39, came to JMU in 1982 from Francis Marion College where she was assistant coach for the 1982 AIAW Division II national champion basketball team. During her four years as assistant coach at the Florence, S.C., school, the Patriots compiled a 93-31 (.750) record. The team was ranked 12th nationally in Division II in 1981, 18th in 1980 and 15th among small colleges in 1979.

She was also head volleyball and softball coach at Francis Marion. Moorman's volleyball teams compiled a record of 109-47 (.699) in four years and competed in two AIAW Region II Tournaments. Her softball teams compiled a 71-23 (.755) record, won two South Carolina Division II championships, captured a Region II championship and finished as high as ninth at the AIAW Division II National Championships.

Moorman played varsity basketball at Brigham Young University, where she received a bachelor's degree in

physical education in 1968, and was a member of the U.S. National Women's Basketball Team in 1970, 1973 and 1974. In addition, she played AAU basketball for eight years, was named an AAU All-America in 1971, 1973 and 1974, and was Missouri Valley AAU Athlete of the Year in 1974.

She played for the AAU Raytown (Mo.) Piperettes from 1970-75. The team never finished lower than seventh in the AAU National Tournament and was twice national runner-up during her five years as a member.

Moorman was assistant volleyball, basketball and softball coach at the University of South Carolina in 1977-78 and previously was a graduate assistant coach in basketball and volleyball at the University of Kansas

(1975-77). She received a master's degree in exercise physiology and administration from the University of Kansas in 1981.

At JMU Moorman hopes to build a nationally competitive team and the Dukes are beginning to take the steps necessary to achieve that goal.

"The two recruiting classes we've had have been good ones," said Moorman. "Each year we've improved natural athletic ability in addition to basketball skills. We need to continue to attract players of similar quality."

With increased depth on the team, Moorman hopes her team will play a more up-tempo game this season.

"I hope we can try to move toward a faster-paced game, and run with more of our opponents. I want that to

become part of our offensive style, and I hope we can score in the 70s," Moorman said.

"At the same time I want to maintain an emphasis on defense. Defense triggers your offense, and our pressure on the defensive end of the court will continue to increase. You don't find any championship team on any level that doesn't take pride in its defense."

Winning the conference championship is a primary goal for the JMU Dukes under Moorman.

"Our first priority is to win the conference. Our number one goal needs to be that," said Moorman. "We hope that down the road that will be an automatic bid to the NCAA tournament."

Coach Shelia Moorman anticipates an "up-tempo" game plan this season.

### Smaller Ball To be Used

The use of a smaller basketball for women's college basketball was approved last April by the U.S. Girls' and Women's Basketball Rules Committee. The new ball will be 28½ to 29 inches in circumference and weigh 18 to 20 ounces. It is approximately one inch and two ounces smaller than the ball formerly used in women's college basketball, and it is also a narrow seam (¼ inch) ball.

**Item:** Despite a below-.500 record, the Dukes outscored their opponents by an average of more than four points per game. JMU's 13 wins were by an average of 18.3 points a game, while the Dukes' losses were by an average of 7.3 points. Only three times did JMU lose a game by more than 10 points.

**Item:** Among the Dukes' victories were the team's first win over Virginia Tech since 1978-79 and the first victory over William and Mary in five years. The Dukes lost to nationally fifth-ranked Old Dominion but held the Monarchs to their lowest score against a JMU team in seven years. Another close loss came with a 57-52 defeat at nationally-ranked, and later NCAA-bound, Virginia.

**Item:** JMU set a school field goal percentage record as the team hit 44.4 percent from the floor in 1983-84, breaking the existing record of 42.9 percent established in 1981-82. The Dukes led the Eastern College Athletic Conference (ECAC) South

in team field goal percentage all 11 weeks ECAC South statistics were compiled.

JMU twice set single game field goal percentage records, first by hit-

ting 63.2 percent in the season-opener with Loyola, then by connecting on 65.4 percent of its attempts in a win over American.

**Item:** The Dukes were one of the conference's top free throw shooting teams. JMU led or shared the lead in the ECAC South in team free throw percentage for nine of the 11 weeks ECAC South statistics were compiled. JMU shot 69.5 percent from the foul line in 1983-84.

**Item:** The JMU defense was ranked among the NCAA's best throughout the 1983-84 season. JMU allowed its opponents only 58.6 points per game, the sixth-lowest average in the final NCAA Division I statistics. The Dukes were ranked as high as second in scoring defense in the NCAA in 1983-84, and JMU also ranked as high as 10th in the NCAA in field goal percentage defense during the season.
